

# PORN HARMS

- > Many victims of sex trafficking are used to film pornography.
- > Viewing pornography hijacks the reward pathways in the brain in the same way that drugs impact the brain.
- > Tolerance can be built to pornography, causing users to become addicted and seek more extreme content for the same effects.
- > Pornography frequently leads to unhealthy ideas about sex, sexual dysfunction, and complex problems in intimate relationships.
- > Pornography often leads viewers to isolate from loved ones, hindering intimacy with them.
- > Many pornography users' partners feel depressed, anxious, and worthless, as if they can never measure up.

Roadmap to Recovery from Pornography Addiction

# LONESTAR COALITION AGAINST PORNOGRAPHY

The LoneSTAR Coalition Against Pornography (or LCAP) is a non-profit agency with a mission to educate Texans about the harmful effects of pornography on individuals, marriages, and families. LCAP is operated by a team of volunteers who believe that education is a powerful way to fight against pornography.

Shane Adamson, LCSW, a therapist who specializes in helping individuals with compulsive sexual behavior problems, founded LCAP after spending almost 20 years with a front row seat to the damaging effects of pornography. Co-director of LCAP with Shane is Dale Rylander, of Rylander & Associates, who works to advise and grow non-profit organizations.

## UNITE TO FIGHT

Purchase your ticket today!  
Go to [www.lonestarcoalitionagainstporn.org](http://www.lonestarcoalitionagainstporn.org)
